#### **ADDITIONAL ACHIEVEMENTS**

1. **I've designed from concept to completion the 1st state of the art Burn Care Center (BCC)** at PIMS that was inaugurated by the **President of Pakistan** on December 6, 2007. This is the **first of its kind** in the public sector of Pakistan and rather south Asia that is established in accordance with the latest International standards for the management of Acute Burn Care and long-term sequel. I have prepared the PC-1 for this project, which was prepared after studying various international Burns centers. The project was approved in August 2003 by the CDWP, but the construction work started in January 2005 with a total cost of **398 Million**. Funds were allocated through **PSDP**. I was also the **Project Manager** for this project and prepared and monitored, on day-to-day basis, each and every detail of this project including the procurement of very high tech bio-medical equipment. In 05 years the Center has managed more than 30,000 patients and all the treatment is free of cost at this center.
2. Started 1st time in the country 02 years **Fellowship in Burns Surgery** from SZAB Medical University, recognized by PMDC as **Level-IV** degree program.

3. Being a regular golfer won many armature prizes and the latest is **“NET WINNER-2015”** of Mobilink One Classic Tournament held at Islamabad Golf Club.
